Mehmet Arif Emre Şen

PersonalInfo

Phone : Contact thorugh mail if needed

E-mail : maemresen@yazilim.vip

Gender : male

Birth Place/Date : Bandırma/25.08.1997

Martial Status : Single
Nationality : Turkish
Driver License : B

LinkedIn : https://www.linkedin.com/in/maemresen

GitHub : https://github.com/maemresen

About Me

I am an entrepreneur who wants to learn new technologies and use them to make things easier. My life goal is having my own job and creating a software community that everyone can get benefit from. I have deep interest to Object Oriented Paradigm

Languages

English : Reading:good Writing:good Speaking:good

Education

Under Graduate : Akdeniz University, Antalya

Computer Science Engineering 2015 – 2019

High School : Antalya High School, Antalya

Matematik-Fen 2011-2015

Skills

Programming Skills

Basic : Visual Basic, TeX, Python

Intermediate : Kotlin, Bash Script, PHP, JavaScript, HTML5, CSS3

Advanced : Java

Others

IDE : Eclipse, Spring Tool Suite(STS), IntelliJ Idea, Netbeans

Database Management : SQL, MySQL, PostgreSQL

ORM: JDBC, MyBatis, Hibernate

Tools : Maven, Composer, SVN, GIT, Jenkins, JavaDoc, Tomcat, CPANEL

Web Technologies : Hybrid Mobile Apps(Phonegap, Cordova), AJAX, JSP, JSTL, Bootstrap, ReactJS

Techologies : JavaFX, Spring Web-MVC, Spring Boot, RESTful Web Service, Micro Service,

NodeJS

Computer Skills : Office Apps, Linux Terminal(High-Level), Effective Search Engine Usage

Organization

UBMK 17 : Crew
3. Antalya Bilim Şenliği : Participant

Linux Seminar : Undergraduate Seminar

Work	LLX	реги	ences

Jr. R&D Software Engineer	06/2019 - 08/2020 (1 year 2 months)	
Place : Job Descirption :	Cantek Group - Using Hybrid Database Architectures with combining PostgreSQL + Cassandra technologies - Developing Java Microservices with Spring Boot (mostly Spring Framework Core, Spring Security and Spring Cloud Modules) and deploying them as a Docker containers on the server - Using Docker, GitLab, Jenkins, JFrog Artifactory technologies. - Working on a system which is running on Ubuntu 16.04 server and apply DevOps by using CI/CD Software that each one is running inside separate Docker containers. - Managing source code via GitLab - Compiling Spring Boot applications with Maven via Jenkins - Serving JARs on the JFrog Artifactory via Jenkins	
Part-Time Developer	09/2018 - 06/2019 (9 months)	
Place : Job Descirption :	Cantek Group - Using Hybrid Database Architectures with combining PostgreSQL + Cassandra technologies - Developing Java Microservices with Spring Boot (mostly Spring Framework Core, Spring Security and Spring Cloud Modules) and deploying them as a Docker containers on the server - Using Docker, GitLab, Jenkins, JFrog Artifactory technologies. - Working on a system which is running on Ubuntu 16.04 server and apply DevOps by using CI/CD Software that each one is running inside separate Docker containers. - Managing source code via GitLab - Compiling Spring Boot applications with Maven via Jenkins - Serving JARs on the JFrog Artifactory via Jenkins	
Software Engineering Internship	07/2018 - 09/2018 (2 months)	
Place : Job Descirption :	Cantek Group - Research Docker, GitLab, Jenkins, JFrog Artifactory technologies. - Comparing Project Management Tools (Jira, Trello, Taiga.io, GitLab Tools - Running GitLab - Jenkins - JFrog Artifactory in separate Docker container - Setup a system on Ubuntu 16.04 server to - Managing source code via GitLab - Compiling Spring Boot applications with Maven via Jenkins - Serving JARs on the JFrog Artifactory via Jenkins	
Part-Time Developer	08/2016 - 06/2018 (1 year 10 months)	
Place : Job Description :	Akdeniz University BAUM — Developing Java Web Apps (Spring MVC) with using Spring framework — Providing communication between web apps and database over RESTful Service — Compiling applications with Maven, sending them to the SVN environment serving them on the Tomcat Server via Jenkins.	
Place : Job Description :	Akdeniz University BAUM Web page design using the Bootstrap library with HTML5-CSS3-JavaScript
